

# Blockchain Services

Web3 Solutions to innovate beyond

# About us

We are a **blockchain technology company** providing **web3 solutions** for businesses that want to evolve using cutting-edge blockchain solutions and for Web3 projects that want an upgrade through our multi-chain extensive experience.

# Values

we bring to the table

## AGILE

Purpose built solutions with high adaptability to make **boundless potential** reachable

## ACTUAL

Everything we build is based on the actual **needs and objectives** of our partners

## CONTEXTUAL

Advanced Web3 solutions adapted to your **business' market context** to target efficiency

# Competitive Edge of Web3 Solutions

## Stay ahead with blockchain

We provide context-driven solutions across multi-chain platforms

## Decentralized Solutions

Benefit from our blockchain expertise for seamless Web3 solutions

## Upgrade to Web3 Solutions

We provide context-driven solutions across multi-chain platforms

# Blockchains

we built on

The logo for Multiversx, consisting of a large, stylized 'X' shape formed by two overlapping lines.

Multiversx

The logo for Solana, featuring three horizontal, slightly curved lines that resemble a stylized 'S' or a series of steps.

Solana

The logo for Ethereum, a diamond shape with a smaller diamond inside, representing the ether symbol.

Ethereum

The logo for Polygon, a stylized hexagon with a smaller hexagon inside, representing the MATIC token.

Polygon

The logo for Aptos, a stylized mountain range or landscape with a sun or moon above it.

Aptos

The logo for Algorand, a stylized upward-pointing arrow or triangle shape.

Algorand

The logo for Cardano, a cluster of small dots arranged in a roughly circular pattern, representing the ADA token.

Cardano

The logo for BNB, a stylized diamond shape with a smaller diamond inside, representing the BNB token.

BNB

# Web3 Enhancements

An abstract digital graphic in shades of purple and blue. It features a glowing blue book at the bottom left, with lines extending upwards to various icons: a speech bubble, a musical note, and a dollar sign. The background is a dark purple grid pattern.

Ownership and control over data, decentralization, security, privacy and interoperability - all these Web3 benefits would mean nothing if we were not here to deliver them through proven tools and development.

Let's team up and deliver the best Web3 UX enhancements through community platforms add-ons, gamification solutions, DAOs (Decentralized Autonomous Organizations) & Governance backed by scalable smart contracts, entire ecosystems for users to dive in and third party integrations to extend your reach and enable true interoperability.

# Our Portfolio

A decorative background featuring a purple grid pattern that forms a wavy, undulating surface. A semi-transparent purple rectangular block is positioned in the center, partially overlapping the grid. The overall aesthetic is futuristic and digital.

# Solluminati

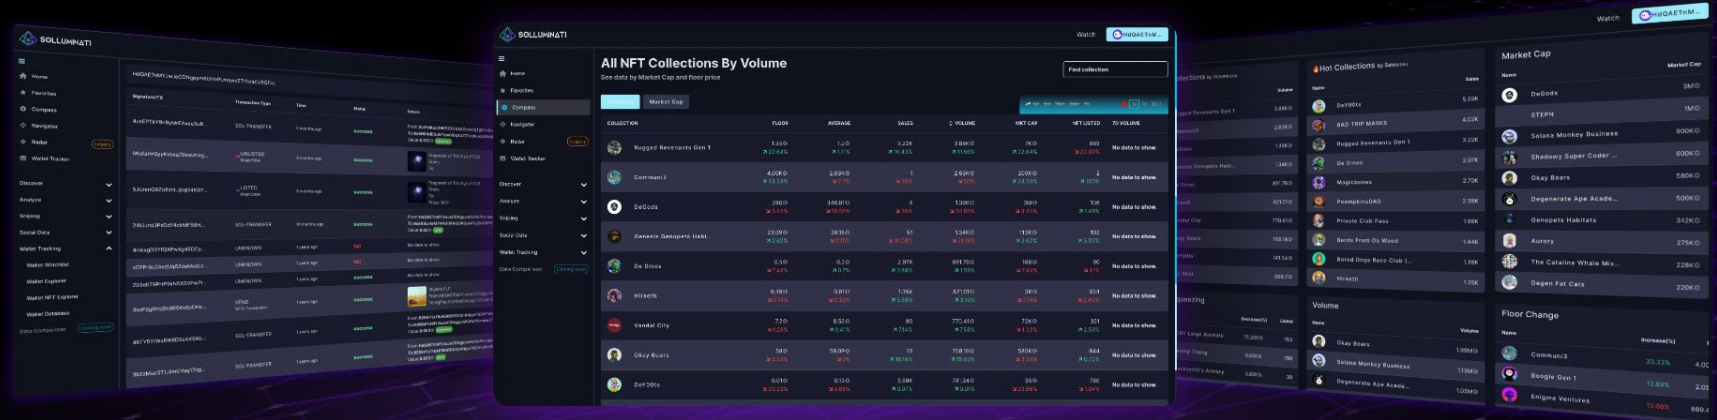

Delivered as a B2B solution to projects across the Solana blockchain which can be easily integrated and highly configurable in regards to staking rules, rewards, reward type, and claiming cycle. Providing exclusive utility for NFT holders and a revenue stream for both the NFT holders that staked their assets and for the project's treasury that supports the DAO.

# S4F

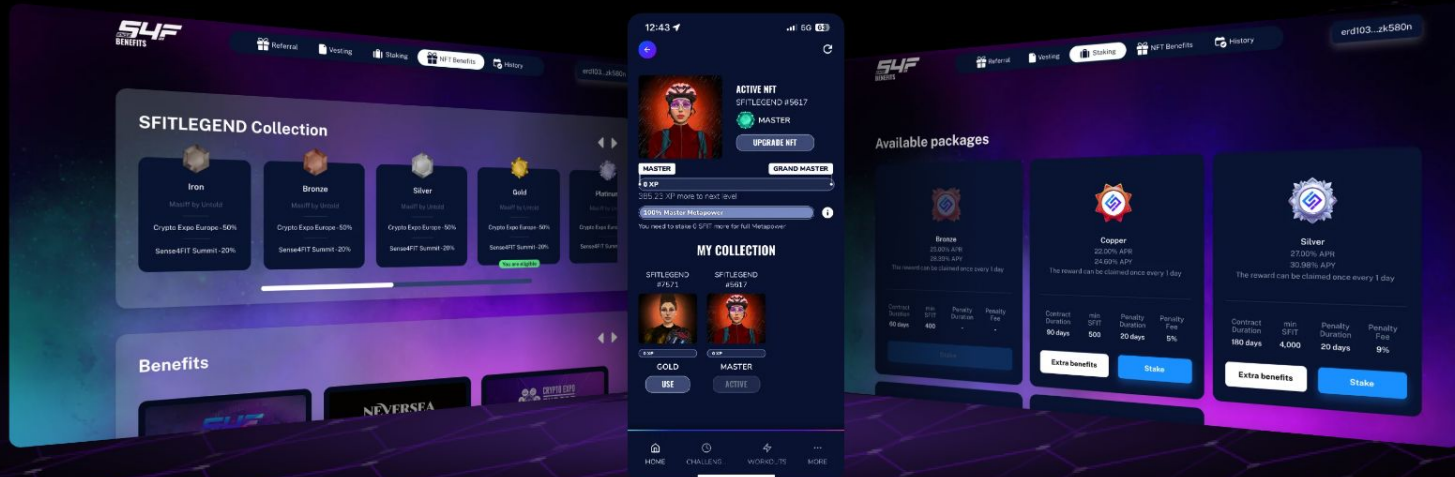

While enhancing a Web2 app to a comprehensive Web3 solution, critical features must be integrated: Merging with the existing Web2 module for tracking in-app progress, instituting a token system for rewarding users, and introducing a capable smart contract to encourage participants based on leaderboard standings.

Smart Contract Development

dApp Development

# Hodlezz

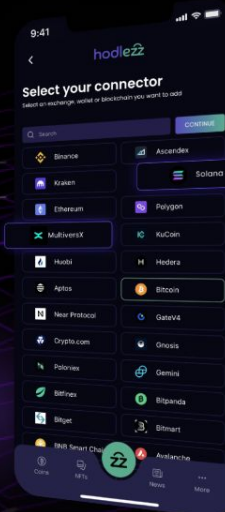

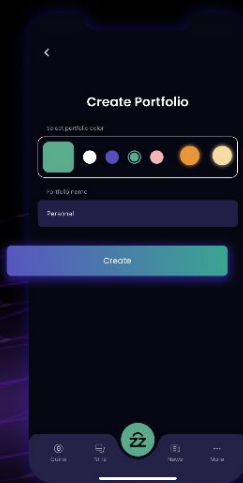

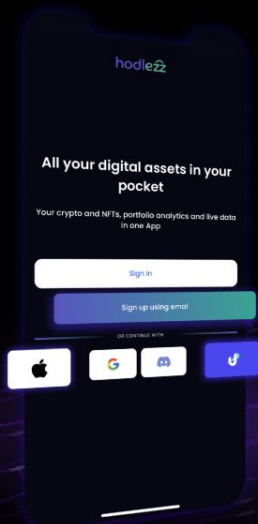

Hodlezz is a smart portfolio application that allows users to keep track of all their digital assets such as tokens and NFTs no matter where these assets are held. The application allows interaction with direct on-chain sources such as Ethereum and off-chain sources such as CEXs like Binance.

Development

dApp  
Development

# Ethernity Cloud

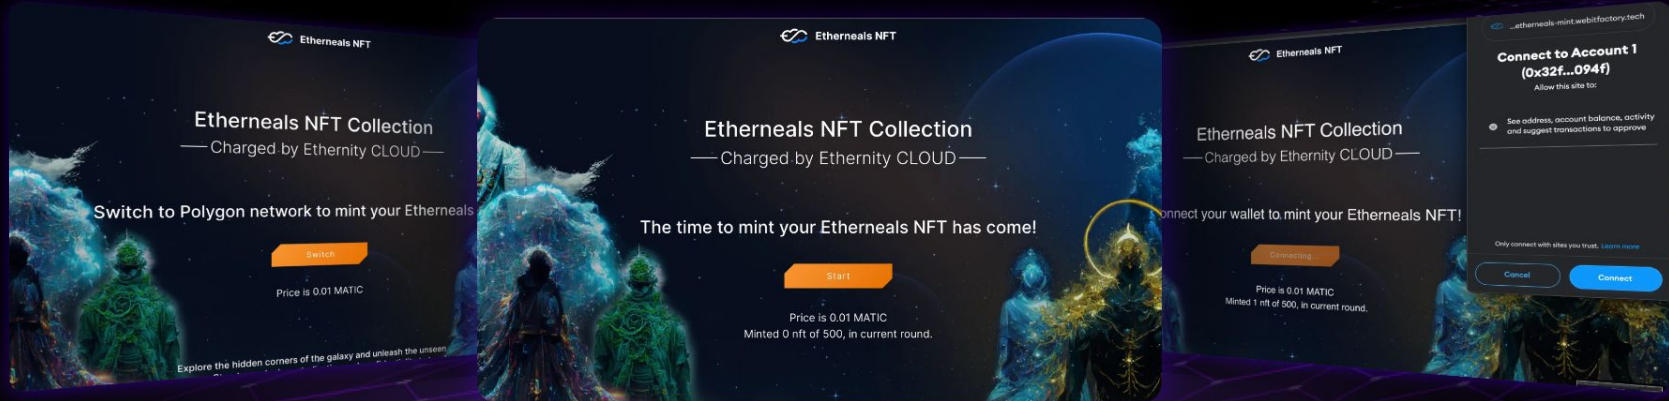

Built for the NFT minting process with a ChainLink VRF integration for a verifiable random function and a dApp to translate and deliver the complex process in a decluttered and easy way for the users to mint. Perfected to ensure NFT data integrity and accuracy because the NFT metadata determines specific advantages, perks and boosts within the Cloud Service. The smart contract's advanced features can be easily operated based on the provided User Guide.

Smart Contract Development

dApp Development

# Dreamy Whales

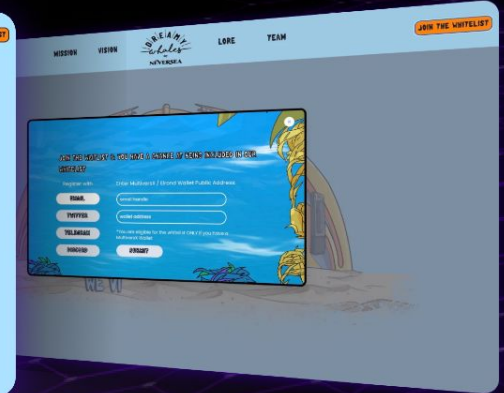

We developed a user-friendly dApp with wallet integration, granting NFT owners access to numerous privileges such as event tickets, exclusive offers, and unique side events. This continuous interaction ensures year-round engagement, cultivating a loyal fanbase beyond the event days and tapping into new market segments.
